ABOUT US

BARAMA Construction Services was established in 1991 by Arif Hajiyev a construction engineer, working in the country's construction industry since 1961. Under his management, within 2-3 years of establishment, the company's projects' worth totalled over 3 000 000 USD.

He is coming from a family involved in Azerbaijan's traditional silk business and this is from where he picked up the company's name - "BARAMA" meaning silk cocoon.

THE JOB MAY SEEM HARD BUT WE CAN HELP!

As mentioned on the previous page, our experience accumulated since 1991 allows us to approach you and your business attentively and professionally. This helps us to find best suitable solutions for our clients.
